[Removing Line Feeds in Java](#)

By [Roger Keays](#), 22 January 2009

This should be a fairly cross-platform way to remove line feeds from a string using Java:

```
string.replaceAll("[\r\n]", "")
```

Why do the smallest issues always take the longest to resolve?

About Roger Keays

Roger Keays is an artist, an engineer, and a student of life. He has no fixed address and has left footprints on 40-something different countries around the world.

Roger is addicted to surfing. His other interests are music, psychology, languages, the proper use of semicolons, and finding good food.
