Change J2EE Version Of Netbeans Maven Project

By [Roger Keays,](#) 16 March 2012

For Maven projects, Netbeans determines the J2EE version shown in the project properties by looking at the version of web.xml:

- web.xml 2.4 -> J2EE 1.4

- web.xml 2.5 -> J2EE 1.5

- web.xml 3.0 -> J2EE 1.6

You have to **restart** Netbeans to see the changes.

About Roger Keays

Roger Keays is an artist, an engineer, and a student of life. He has no fixed addressand has leftfootprints on 40-something different countries around the world. Roger is addicted to surfing. His other interests are music, psychology, languages, the proper use of semicolons, and finding good food.
