Netbeans 6.5 + Ubuntu 8.10 LAF Bug

By Roger Keays, 9 December 2008

This is how Netbeans 6.5 looked out of the box on Ubuntu 8.10 for me. The line spacing is screwed up.

The problem was Ubuntu had installed openjdk-6-jdk for me, but Netbeans must have only been tested with sun-java6-jdk. To fix this fire up your terminal and type:

```
$ sudo apt-get install sun-java6-jdk
$ sudo rm /usr/lib/jvm/default-java
$ sudo ln -s /usr/lib/jvm/java-6-sun-1.6.0.10/ /usr/lib/jvm/default-java
```

About Roger Keays

Roger Keays is an artist, an engineer, and a student of life. He has no fixed addressand has leftfootprints on 40-something different countries around the world. Roger is addicted to surfing. His other interests are music, psychology, languages, the proper use of semicolons, and finding good food.
