Free Spanish Flashcards

By [Roger Keays](#), 30 September 2011

Flashcards are an excellent way to sharpen your language skills and with spaced repetition software you can focus more time on your problem areas. They're also great for relearning a language - provided you have a good set of flashcards.

These flashcards have been carefully arranged in order of increasing difficulty and grouped to build your confidence by keeping related words together. Additionally, they have all been tagged appropriately to help you focus your reviews.

There are three decks - the main one with common Spanish Phrases and Vocab (2000 cards), a second with all the conjugations from my [Spanish Conjugations Spreadsheet](#) (1900 cards), and a third which is all those conjugations shuffled around to test your mental skills.

You can download the decks in CSV, [AnyMemo](#) and [Anki](#) formats below. They are free of charge (lucky you). All I ask is that if you find these resources useful, please **SHARE** this page to your Facebook, Twitter or blog using the icons at the top and bottom of this page.

Bueno.
