

## **Free Spanish Resources**

By [Roger Keays](#), 24 September 2011

My favourite free online Spanish resources.

- [Onoma Conjugator](#) - The only conjugator I could find that conjugates for vos. It also has some excellent verb charts which show the vowel patterns really nicely once you get used to them.
- [Wikipedia Spanish Grammar](#) - Naturally. Wikipedia normally always has the best and most accurate description of any language. Not for the light hearted though.
- [Notes In Spanish Podcast](#) - Hours and hours of free audio to improve your listening.
- [Charlie Brown YouTube Channel](#) - In Spanish of course.
- [Study Spanish](#) - This site has a good simplified grammar, but the reason I like it is because of the free quizzes after each lesson.
- [Spanglish](#) - A language exchange group in Buenos Aires. This is where I learnt most of my Spanish, the only side-effect being that now other South Americans think I'm Argentinian. Not free, but good value.
- [Spanish-Test.net](#) - 4 Spanish tests, each of 30 questions which you can use to determine your level of Spanish.
